Secretary's Report: Minutes were read from the April 1st meeting, Vic moved to accept, Harry Alderson 2nd,-----**motion passed.**

Members present were--

O.B.---Under OB Sam asked Vic how his safety guidelines worked at the last FF, Vic replied that it was a safe FF and that all went well.

Next Vic brought up about ordering fuel and discussed about getting 2 drums for the club and possibly ordering a 3rd drum for someone outside the club to possibly help with lowering shipping cost for all. After some discussion Nick made a motion that we order 2 drums as long as the price increases remained below \$11/ gallon. Dale 2nd the motion and the **motion passed.** If the outside party orders a drum it will be paid for in advance before ordering.

Under NB---Sam noted that we have the Memorial Day weekend reserved and need to decide on when to have the pitch-in/ fly in. After much discussion Richard Lahrman moved to have the pitch-in on Sunday the 27th at 1:00. The club to furnish meat & drinks and Richard volunteered to cook. Vic 2nd the motion and the **motion passed.**

Next Richard suggested that the club investigate the idea of installing elevated plane stations. After much discussion it was generally accepted as a good idea, but that the Parks Dept would need a clear set of drawings to show exactly what we have in mind and where we would place them. Kenney volunteered to take measurements, design a station, and make drawings to turn in. Hopefully Ken will have something by next meeting or before.

Rick announced that the FAST club is going to have their fall swap again, but it will be in a new location at the Preble County fairgrounds, Rick will keep the club updated on this at a later date.

Being no other business Nick moved to adjourn, Harry 2nd the motion---meeting adjourned.

Next meeting at the field Sunday June 3rd at 1:00.
